

TRAILA

ACTIVELY STEERING TOWARDS A SUSTAINABLE FUTURE

GÖRAN LARSSON
OWNER FOUNDER INVENTOR

„I have always been preoccupied with what the „perfect means of transport“ looks like. I see an opportunity to use a scientific approach to prove and develop Active Steering for rail: it works.“

- **Product creation and development specialist | design focused**
- **Extensive design experience within highly regulated industries**
- **Early adopter of design and development methodologies and software**

UWE NAUTSCH
CO-FOUNDER

„Strategically, it is crucial to be a shining example of innovation. Our engineers require special qualities such as patience, attention to detail, sense of responsibility, etc. Quality always comes first for them, flanked by uncompromising safety thinking.“

- **+30 years experience in High Level Business Development**
- **Product strategy development and execution**
- **Extensive business network and communication outreach**

DR. TOM MORRIS
CEO

„We invest in developing our network, to enable our own people to drive and thrive. I see our positive growth on a daily basis...it is fantastic to be part of this special story.“

- **20 years professional experience in Engineering Design Automation, Robotics and Manufacturing**
- **PhD in Ultra Precision Engineering & Tribology, UK**
- **MBA from University of Chicago Booth School of Business, USA**

VISION AHEAD OF THE CURVE

Create a dynamic technology group focused on building sustainable future transport
Challenge traditional ways of thinking

PURPOSE ACTIVE STEERING

Standardize active steering in the rail industry
Guide us towards a silent and sustainable future

IMPACT ONE REVOLUTION DOUBLE IMPACT

Higher quality of life
Lower lifetime costs
